Mobilizon - Dezentral Event Calendar (GER/ENG)

Workshop Presentation

2023  Atelier 

 Description

 History

[DEU]

Setze dein regionaler Event-Kalender im Internet auf und sei doch überregional vernetzt. Das geht mit der freien Open-Source Mobilizon Software, die unter anderem schon erfolgreich in Berlin, Wien oder Winterthur läuft. Was daran der Vorteil ist und weshalb diese sich besser eignet als die nun gängige Lösungen wird in diesem Workshop geäussert.

[ENG]

Set up your regional event calendar on the Internet and yet be networked nationwide. This is possible with the free open-source Mobilizon software, which is already running successfully in Berlin, Vienna and Winterthur. What is the advantage and why it is better suited than the current solutions will be discussed in this workshop.

 Discussion

 Write a comment

The person that originally proposed this workshop will unfortunately not be able to present it. That means others will need to step up and introduce the topic, which can be a shared task between the various participants. Also, if you would like to step in and present this topic, just click the appropriate button above.
